The significant assumptions underlying the estimate are the calculated discount rate and the future gas curve (for the gas swap and offsetting prepaid gas instrument) and the spread between taxable and tax-exempt entity interest rates (for the supply agreement instrument).

#### Management's process for developing estimates

Management uses several data sources to calculate the fair value of derivative investments. Management obtains the future gas curve and Bloomberg screenshot for Citigroup CDS rates from the ERM department. The forward interest rates for tax-exempt and the taxable entities are obtained from the treasury department. The risk free rates are pulled from the US treasury department website. The forward curves are San Juan obtained from Allegro and Wood Mackenzie. The inputs are used within models to calculate the fair value of the derivative instruments.

#### Our audit response

- · We obtained an understanding of management's process for valuing derivative instruments.
- We utilized our PwC commodity derivative specialists to review the inputs from pricing agencies and forward price curves, and the appropriateness of the methodology used to value the derivative instruments.
- As of the date of this report, the engagement team has not identified any material exceptions or control deficiencies.

#### **Report of Independent Auditors**

To the Board of Directors of Salt Verde Financial Corporation

#### **Opinion**

We have audited the accompanying financial statements of Salt Verde Financial Corporation ("SVFC"), which comprise the statements of net position as of April 30, 2023 and 2022, the related statements of revenues, expenses, and changes in net position and of cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of SVFC as of April 30, 2023 and 2022, and the changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of SVFC and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about SVFC's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS, will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material

if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of SVFC's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about SVFC's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis* on pages 1 through 7 be presented to supplement the basic financial statements. Such information is the responsibility of management, although not a part of the basic financial statements, is required by *the Governmental Accounting Standards Board* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

All related reconciling items considered to be material were identified and included on the reconciliations and were appropriately adjusted in the financial statements, as necessary. There were no material unreconciled differences or material general ledger suspense account items that should have been adjusted or reclassified to another account balance. There were no material general ledger suspense account items written off to a balance sheet account, which should have been written off to an income statement account and vice versa.
- 4. There have been no communications from regulatory agencies concerning noncompliance with or deficiencies in financial reporting practices.

- 6. We acknowledge and confirm that we have fulfilled our responsibility, as set out in our engagement letter of April 13, 2023, for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error and we have disclosed to you all deficiencies in the design or operation of internal control over financial reporting of which we are aware.
- 7. We acknowledge our responsibility for the design and implementation of programs and controls to provide reasonable assurance that fraud is prevented and detected.

  - a. Management,
  - Employees who have significant roles in internal control over financial reporting, or
  - c. Others where the fraud could have a material effect on the financial statements.

9. We have no knowledge of any allegations of fraud or suspected fraud affecting the Company received in communications from employees, former employees, analysts, regulators, short sellers, or others.

(As to items 7, 8 and 9, we understand the term "fraud" to mean those matters described in AICPA AU-C 240.)

- 10. There have been no violations or possible violations of laws or regulations whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency.

- 12. We have disclosed to you the identity of all the Company's related parties and all the related party relationships and transactions of which we are aware.
- 13. There are no side agreements or other arrangements (either written or oral) that have not been disclosed to you.
- 14. The following, if material, have been properly recorded or disclosed in the financial statements:
  - a. Relationships and transactions with related parties, as described in Governmental Accounting Standards Board Statement (GASBS) No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA pronouncements (GASBS 62) including sales, purchases, loans, transfers, leasing arrangements, and guarantees, and amounts receivable from or payable to related parties.
  - b. Guarantees, whether written or oral, under which the Company is contingently liable.
  - c. Significant estimates and material concentrations known to management that are required to be disclosed in accordance with GASBS 62. (Significant estimates are estimates at the balance sheet date that could change materially within the next year. Concentrations refer to volumes of business, revenues, available sources of supply, or markets or geographic areas for which events could occur that would significantly disrupt normal finances within the next year.)

- 16. The Company has complied with all aspects of contractual agreements that would have a material effect on the financial statements in the event of noncompliance.

- 17. All liabilities of the Company of which we are aware are included in the financial statements at the balance sheet dates. There are no other liabilities or gain or loss contingencies that are required to be recognized or disclosed by GASBS 62, and no unasserted claims or assessments that our legal counsel has advised us are probable of assertion and required to be disclosed in accordance with that topic.
- 18. We are responsible for all significant estimates and judgments affecting the financial statements. The methods, underlying data, and significant assumptions used in developing accounting estimates and the related disclosures are reasonable and appropriate to achieve recognition, measurement, or disclosure in the financial statements in accordance with accounting principles generally accepted in the United States of America. The methods used in developing accounting estimates have been consistently applied in the periods presented and the data used in developing accounting estimates is accurate and complete. Accounting estimates and judgments appropriately reflect management's intent and ability to carry out specific courses of action, where relevant. There have been no subsequent events that would require the adjustment of any significant estimates and related disclosures.
- 19. We acknowledge and confirm that we understand your responsibility, as set out in our engagement letter of April 13, 2023, to obtain an understanding of the design and implementation of the Company's internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. We also acknowledge that you have not tested the operating effectiveness of our internal control over financial reporting as part of your audit of the financial statements.
- 20. We have provided you with the final version of the document(s) that comprise the annual report (as defined by AU-C Section 720), as listed in Attachment 1 to this letter. The other information included in the Company's annual report is consistent with the financial statements and does not contain any material misstatements. Should there be any changes to the annual report, we acknowledge and confirm our responsibility to notify you of the change and provide a written acknowledgement of the document or documents that comprise the annual report and the planned manner and timing of issuance of such documents and to provide the final version of the document(s) prior to issuance of the updated annual report, such that you can complete the procedures required by applicable professional standards.
- 21. We acknowledge our responsibility for the presentation of the management's discussion and analysis in accordance with GASBS No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments* (GASBS 34). We believe such information, including its form and content, is fairly presented in accordance with GASBS 34. The methods of measurement or presentation have not changed from those used in the prior period. We have informed you about any significant assumptions or interpretations underlying the measurement or presentation of the information.

- 22. The Company has adopted GASBS No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting.* Governmental entities are given the option whether or not to apply all FASB statements and Interpretations issued after November 30, 1989, except for those that conflict with or contradict GASB pronouncements. The Company has elected to not implement FASB Statements and Interpretations issued after November 30, 1989. Such election is properly disclosed in the financial statements.
- 23. We completed the process of evaluating the impact that will result from the adoption of GASB issues Statement No. 87, *Leases*. Such impact is disclosed in Note 2.
- 24. All cash and deposit accounts and all other properties and assets of the Company are included in the financial statements. Arrangements with financial institutions involving compensating balances or other arrangements involving restrictions on cash balances, lines of credit, collateral posted or similar arrangements have been properly disclosed in the financial statements.
- 25. We consistently applied our policy regarding classification of cash and cash equivalents, which are short-term, highly liquid investments that are readily convertible to known amounts of cash and are so near their maturity that there is insignificant risk of changes in value due to interest rate or other credit risk changes.
- 26. All borrowings and financial obligations of the Company have been disclosed to you and are properly recorded and disclosed in the financial statements.
- 27. The Company has appropriately classified as current and non-current its Senior and Subordinated Gas Revenue Bonds in the Company's classified balance sheet in accordance with the appropriate authoritative guidance.
- 28. The Company has not violated any covenants of its Senior and Subordinated Gas Revenue Bonds during any of the periods presented, and we disclosed to you all covenants and information related to how we determined compliance with the covenants.
- 29. The tax-exempt bonds issued by the Company have retained their tax-exempt status.
- 30. We evaluated all contracts and financial instruments to determine whether they meet the definition of a derivative under GASBS No. 53, *Accounting and Financial Reporting for Derivative Instruments* (GASBS 53).
- 31. We evaluated financial instruments and other contracts to determine whether the hybrid instrument contains embedded derivative instruments and have separated the embedded derivative from the host contract and accounted for it separately at fair value in accordance with GASBS 53, if the following criteria in accordance with GAAP have been met: (i) the economic characteristics and risks of the embedded derivative are not clearly and closely related to the host contract, (ii) the hybrid instrument that includes the embedded and host contracts is not remeasured at fair value in accordance with GAAP

- and (iii) a separate instrument with the same terms as the embedded derivative instrument, would, under GAAP, be a derivative instrument.
- 32. We are responsible for all significant estimates and judgments affecting derivative financial instruments and commodity derivatives valuation. The methods, underlying data, and significant assumptions used in derivative financial instruments and commodity derivatives valuation and related disclosures are consistent with what a market participant would use, and are reasonable and appropriate to achieve recognition, measurement or disclosure in the financial statements, in accordance with GASB No. 53, *Accounting and Financial Reporting for Derivative Instruments*. The methods used in valuation have been consistently applied in the periods presented and the data used in valuation is accurate and complete. Accounting estimates and judgments appropriately reflect management's intent and ability to carry out specific courses of action, where relevant. - 34. Components of net position (restricted, and unrestricted) are properly classified.
- 35. The financial statements disclose all matters of which we are aware that are relevant to the Company's ability to continue as a going concern, including all significant conditions and events and management's plans. There have been no events that indicate a termination event (as defined by the Agreement for Purchase and Sale of Natural Gas between the Company and Citigroup Energy, Inc.) has or is likely to occur. In addition, all obligations under the operable documents, including gas deliveries, are being satisfied. Accordingly, the Company's financial statements are prepared on a going-concern basis. We made available to you all relevant information on the Company's ability to continue as a going concern that could affect the financial statements. There have been no subsequent events which would indicate a termination event is likely to occur.
- 36. We have accounted for our investments in accordance with the requirements of GASBS No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools. In accordance with this guidance, we have concluded that investments held are "nonparticipating" contracts and, as such, the investments are recorded at cost. Furthermore, we have considered whether the fair value of the investments has been significantly affected by the impairment of the credit standing of the issuer or other facts. The posting of collateral by MBIA Inc. and AIG Matched Funding Corp. (AIGM FC) to support the investments precluded the need to record any impairment as of April 30, 2023.
